Your club runs here.

CurlingHQ brings league scheduling, registration, payments, practice bookings and member communication together.

This member dashboard shows fictional demo-club data.

BUILT AROUND THE GAME.

CurlingHQ connects the work around the ice: members, leagues, events, practice bookings and the club website. It is developed by Primary Key Solutions, with English and French support for American and Canadian clubs.

Tools for the whole club.

Clubs enable the tools they need, with separate access for members, league managers and administrators.

Registration and memberships.

Collect annual dues separately from league fees. Register individuals or complete teams, and retain required waivers.

Scheduling and results.

Build schedules around draw times and club constraints. Keep results, standings, scoreboard photos and manager review together.

Practice and rentals.

Set seasonal booking windows, member limits and visitor prices. Coordinate rental inquiries, sheets, staffing and payments.

Communication and spares.

Use league channels, private messages and announcements. Coordinate spare requests and opt-in device notifications.

Club operations.

Track payments, expenses and budgets. Manage volunteers, locker reservations, equipment records and association reporting.

Regional settings.

Use English or French, US or Canadian dollars, club time zones, individual display preferences and club-specific waiver documents.

The 2026-2027 season is free.

Then US$399 per club, per year.

Free through June 30, 2027. Annual renewal begins July 1, 2027. All leagues are included. Applicable taxes are additional. CurlingHQ adds no registration fees; Stripe or Square processing fees apply.

Use CurlingHQ in a mobile browser. Contact us about current iPhone and Android app access.

Ready to share.

Color logo for light backgrounds.

App icon for dark backgrounds and app listings.

Keep original colors and proportions. The color logo and app mark are PNG files with transparent backgrounds.

SHORT DESCRIPTION

CurlingHQ helps curling clubs manage leagues, registration, payments, practice ice and member communication in one place, with English and French support. It is developed by Primary Key Solutions.

DESCRIPTION EN FRANCAIS

CurlingHQ aide les clubs de curling à gérer les ligues, les inscriptions, les paiements, les réservations de glace et les communications dans un même outil, en français et en anglais.
